

## ARML Local 2016 Results Report

This year there were students participating from the US, China (including Hong Kong), and Korea. Each country was placed in the top 30-50 nationally will com into the global ranking. Students clearly put in a lot of effort and worked extremely hard throughout the competition, and cooperated well especially during the relay round.

Some students did not use their QR codes properly. While it is unfortunate to disqualify students, these are the rules of the contest, sadly resulting in some of these scores being disqualified. If you still are missing a student's score, please email [math@seedasdan.org](mailto:math@seedasdan.org) with the students' information (name, school, team name, etc.) and we can try to find their result.

We look forward to having you participate in next year's contest!
